Dear Unariun Friend:

Although it has been but three weeks since our beloved Moderator's work was completed and He made His ascension into inner worlds of Light, this day has brought for us all a Message of hope, of Truth, of our unified Oneness - and again proving Principle that He taught. The enclosed lines were received through my consciousness from Him on the Inner and should mean much to you - the student. Especially did my own personal joy and thanks run high, for it meant to me that here now, the work and/or any future dissertations He may wish to bring, could be thus imparted through this one. This, of course, is what we had been working toward all through the (nearly eighteen) years of togetherness - all a part of the great Infinite Master Plan.

As it was pouring rain today, thus the sudden appearance of not only one, but two beautifully-colored birds (one quite red, the other yellow) fluttered down and perched in the drenching rain upon my picket fence, directly beside the window through which I was looking; and which, to me, was indeed a spirit manifestation. I sensed also at the same time, here He is prompting these lovely birds to come to me - even in the pouring rain! His Presence became very strong and the power with It nearly wilted me - it was tremendous - the strongest I have ever sensed! So much so that I cried aloud - so beautiful and transcended did I become - not for just a moment or two, but the duration was quite lengthy. In fact, it has been nearly nine hours now and the great wave of Infinite Light still oscillates here and is being oscillated unto you - each one. It should be said, no doubt, that I personally have had a great love for beautifully-colored birds, which He knew; however, we've never seen any in this area - larks, yes, but not the colored birds.

Along with the powerful ray beam came His very Presence into my consciousness; then came the enclosed Message. I have copied it off for you as it was felt this was His way of relating to you that He is free - freed of this physical world and its innumerable negations - and which, to such a Being, was almost insurmountable. Yet, surmount them He did, and the Message was delivered to the earthians in its full and complete capacity. It should be said too, that with all the life-changing wisdom that was brought, it too is but one very small fraction that could have been were man ready to accept - and which, for the most part, he is not. But Unarius is concerned only or mainly for those who have so readied themselves for this, their advent into the higher way of life.

This accompanying Message, as you will read, is to insure with you that He (as well as myself) shall be working in full consciousness with you - even more so than previously - for now

(over

far less effort need be extended toward the physical side. Only a past or Super Master could manipulate and control such an instrument as was the "so-called" robot, yet, did (and does) He wield all the love of the Infinite to each one.

Yes, our Inner Help and Light shall be carried on to the four corners of the earth, for this is the beginning of the new Aquarian age.

Let us all project to Him our love and happiness in this, His ascension; the Plan has been fulfilled in all respects up to this point. We here are most thankful and appreciative that now He has returned to His Brothers of Light - the Flame People.

It may be of interest to the student too, that at the very moment of his releasement, the words were projected unto my consciousness: "All Powers have been transferred." Now, during the past few days there has been beautiful evidence of great and wondrous healings effected - an even stepped-up healing Power noted - proving again that there is no separation in Consciousness when it is infinitely biased.

If any of you dear ones do not have all the tapes which He Voiced, they will seem even dearer and closer to you now. I find it so. Yes, there is indeed a most perfect and wonderful Oneness - in all ways, needs and expressions here - again proving the Principle He taught.

Now, Phase Two of the great Mission is underway; it shall be of interest to see all that the future has in store, expression-wise.

We shall, of course, continue to welcome, as always, your lines of testimonials and shall be pleased to hear of your reactions or power sensings with the reading of the Message. We do know you people shall be having many interesting and life-changing experiences which we would love to also hear.

Thus, may you dwell in the House of the Infinite forever.

The Unariuns,

Ioshanna

P.S. I feel sure too, that some of you who have so prepared yourselves and have set it up from the Inner will, in time or years to come, sense the quickening and the desire to wish to come and help carry on and further the work of Unarius. There were too, some certain ones who - even from across the states - wished to make a visitation and whom we had, due to His great sensitivity and outflow of Powers - to refuse. Thus, we can now remove this (then necessary) obstruction or inability to have visitors and will welcome those of you who so wish a visitation at the Center - our home.

This day, too, I snapped a picture of the "place our Moderator slept" - his bedroom - and should any wish for a copy, your mention will bring it. Also, I have quite a number of polaroid pictures that can be duplicated if you have none of Him and wish one - will do.

Also, I'll share with you here a statement made by one of the Brothers many years ago from Inner Consciousness: "The Mission will not really get underway until the Channel has left

the body." So you can see, we were well-prepared and look forward in expectancy to seeing the work move forward.

And while we are now in contact, it may be well to relate to you dedicatees the present and future plans of Unarius. We shall, of course, carry on in the projects we had just begun; namely, new editions of existing books, including the "True Life of Jesus", and this Jose book we hope and expect to see as a series of TV presentations, ending not with the end of that book but carried on and including the great and wondrous historical events of those Unarius who have lived and relived these many Jerusalem experiences at the time of Jesus.

Such presentations would indeed prove definitely, once and for all time, the principle of reincarnation, of the regenerative, creative concept expression of all mankind.

Also, the very last dissertations given by the Moderator shall likewise be put in book form, as well as the "proof of the pudding" books - the several testimonial books on which we here (Sanosun, Helen, Eleanor and I) are presently laboring - indeed, a labor of love. These several (4 or 5) student testimonial books shall be titled, and rightfully so, "By Their Fruits Shall They Be Known", for we do have much rich, ripe fruit - and it has just begun!

Yes, the world shall long remember and cherish the great wisdom which the Unarius Moderator brought into this dimension. And, by the way, one immediate project with which we are endeavoring presently is to place at least one set of the Unarius Library into every major city in the entire fifty-one states. And this, dear student, is your opportunity to so participate should you feel inspired, either to place said books in some university, library, or public place of reading; or, you may prefer to contribute for this purpose, for it is felt this is the one sure way the works and teachings will live forever in the hearts of men as a LIVING ETERNAL MEMORIAL to our beloved Teacher.

So, dear student, you can see our future shall be well filled and most productive. Remember, Unarius is your mission; it is, or should be, the mission, purpose and objective of every sincere student.

We trust this new cycle with you shall find you with renewed interests, a stimulated desire for greater understanding and a dedication of purpose to not only your personal attainment and realization but also, to maintain a closer rapport and relationship with Unarius - the Infinite.

Another most wondrous experience - this, just a few days after the separation took place! The Unarius Moderator came to me in full glory and Consciousness; He came as a most glorious golden, living Flame! The manifestation was shimmering and oscillating, expelling the radiant energy, seemingly of what it was composed. The most heavenly manifestation shot out golden shafts of tiny threads of energy all around and about Himself and into my consciousness. The Living Flame seemed about twelve feet tall, yet could have been several times that size. The scintillating Flame was not as that of a candle but seemed alive, pulsating, and pouring out the Light frequencies of Itself, which was sensed as a great and spiritual love - almost more than I

(over

could take. The beautiful feeling, the tremendous power that was brought in with the Visitation could never be put into word forms; suffice to say that it was, for me, life-changing. Only an Avatar could contain and direct such intense Infinite Love to man.

This Visitation of these Flame People, I should say too, was not a mere flash-in, then gone, but rather, remained with me for what seemed a full moment in consciousness - a very unique and rare experience of the highest order. Due to this and my wondrous experiences of this very day, my heart is filled beyond all capacity. My cup truly runneth over, and I know also that these lines too, carry to you, the sincere seeker, this great healing balm - the blessings from the very Infinite Itself, and from Him in His new and even higher ascended Consciousness, for He has made a vast step forward due to His earth world Visitation and accomplishments.

Be faithful, dear Unariun friend; be loyal to the teachings He has brought for you in your need. In your proper time and place, you too shall experience your "sign" and sense His (and our) Presence, and there shall be oscillated unto you this heavenly blessing in a way you can best accept. Be ever expectant.

May the Light within you ever grow the more brightly as you so strive for understanding and to seek toward the Light which we are holding high for you. Remember, the development of Infinite Consciousness is the true way of personal realization of the Christ Light (Self) within you.

Ioshanna

P.S. 2 - You will be interested to know that already there has been an increased measure in new contactees, book orders, and inquiries - a stepping up of the healing Powers expressed. In fact, the past few days, our incoming mail is greatly increased!
