Science of Life

P. O. Box 2017
Escondido, Ca. 92025

Dear Unariun Friend - Our greetings to you!

As always, in our contacts with you, the student, we extend to you our wishes for your continued and sincere interest in your personal development, study, and progress.

In our researching here, such as is expressed, we are ever watchful for any new and otherwise important writings, books, etc., that the Unariun may find of interest or which may be somewhat similar to the Unarius Science.

Just recently, an offset book was located titled "Temple Lectures", by Olney H. Richmond, written in 1892. It is felt that any student would find this book of great interest. It is very simply put, easily understood and we would recommend its reading to you. It is always a joy to find any semblance of this great Unarius Science that has been brought to the earthman - either recently or from some past ages.

Of course, the vast and complete Creative Science of the Infinite is not new. The interdimensional principles, atomic or otherwise, have always existed (and always shall), but very little factual truth of these creative principles has been given to the earthman (before Unarius), as he has not been ready to accept or to conceive, and to effectively apply this knowledge. Thus, it is a joy to find even a small segment of these creative principles set down by others who are likewise aware and so informed.

"Temple Lectures" has not created the great excitement as did the "True Life of Jesus" book, yet it is most gratifying to see that others have known these vital principles in the past. It lends strength. Thus, we obtained some copies for your use. Although you'll no doubt find "nothing new" - aside from Unarius - yet the reading of this book could better help one understand Unarius further. I do recommend it, and we'll be most interested in hearing your comments after the reading! It is \$5.00 plus 21¢ postage.

And while you are writing to us for a copy, if there are those to whom you would give, say, for the Holidays ahead, a copy of the wondrous "True Life of Jesus" book, we are offering them at a greatly reduced price in order to make space for the new edition: paperback (formerly \$3.50) now \$2.00; hard cover (formerly \$5.50) now \$3.50 - both so priced when ordering three or more copies.

Surely, every student could appoint himself to "serve his cause" in this helpful manner! Both the ones receiving the book and we here too shall greatly appreciate your cooperation and serving.

(over

We are herewith too, as is always the case, taking this opportunity of oscillating to you the higher frequencies from the Inner to better aid you in your ~~future~~ ^{forward} motion.

May the radiance of the Infinite ever surround you as you continue to walk with us this illumined pathway.

We Normans (Ioshanna)

P.S. For those of you who have been collecting the recorded Unarius tapes, see note below re additional tapes.

Unarius-Science of Life
P. O. Box 2017
Escondido, Ca. 92025
